

FEATURES

- ◆ Rust resistant heavy gauge electro-plated steel
- ◆ Inside coated with special material to eliminate mechanical resonance
- ◆ Adjustable mounting clips

APPLICATIONS

- ◆ Office Buildings
- ◆ Hotel Lobbies
- ◆ Retail Buildings
- ◆ Restaurants

DESCRIPTION

Enforcer's EBB8RF is a round flush mount metal backbox used to mount the ECB8R baffle. It's made of rust resistant heavy gauge electro-plated steel. The inside is coated with acoustic material to improve performance. The adjustable mounting clips allow for perfect alignment, or T-bar supports (ETBS) can be used to aid in flush mounting to the ceiling tile.
